PLAYS MIXED UNIONS EMERGENCY IS LOST

CONGRESSMAN DENOUNCES INTERNATIONAL MARRIAGES ON FLOOR OF HOUSE.

BRANDS WEDDING BARGAINS

Pays Tribute to American Girls Who Have Spurned Titles for Home Grown Husbands.

Washington, Jan. 28.—International marriages of American heiresses to titled foreigners were denounced on the floor of the house of representatives today by Mr. McGavin of Illinois, who spoke on the bill of his colleague Mr. Sabbath, to tax all dowries and titled husbands.

His remarks were made under license of general debate. At times they provoked laughter and applause on both sides of the chamber.

The house, he said, was in committee of the whole on the state of the union, but he wanted to know what the state of the union was and what it was coming to, "in view of these international unions between American heiresses and alleged nobles from abroad." He wondered what the early pioneers would think and say, if from their graves they could look back and see so many of the women of this country "sacrificing their souls and honor upon the altar of snobbery and vice."

He expressly stated that he had no reference to any particular American girl, nor had he prejudice against all titled men, but he referred "only to those who have a monocle in their eye and an idiotic look upon their faces—those who have neither the disposition to do good nor the ability to do harm."

He said his curiosity had been aroused to know the right committee to which they should have gone, but he had found that it properly had gone to the committee on Ways and Means because it sought to levy a tax. And then, Mr. McGavin said he was curious to know whether the present tariff schedule included Dukes, Earls, Lords and Counts. "Finding that these things were nowhere mentioned, I thought it might be proper for the customs officials to classify them like frogs' legs or as poultry, for it is a general opinion among Americans that they are a species of goose."

Mr. McGavin said the United States triumphantly had deferred to the fact that as between it and other nations the balance of trade was in its favor, "but," he said "nowhere in the summary can be found a reference to such trade as that in which soiled and frayed nobility is exchanged for a few million American dollars, wrung from the lambs of Wall street, with a woman thrown in to boot."

Every day, he declared, seemed to be a bargain day in New York City. Whether it be for a yard of ribbon or a pound of flesh; whether it be upon the retail counter or Broadway or the auction block of Fifth avenue.

In these days, he said, wealthy American girls traveling abroad, when they see some remnant of royalty, enthusiastically exclaim: "Oh, mamma buy me that."

An interpreter is then secured, a bargain is made, the money is paid and the girl is gone, to soon return a sad but wiser one.

In conclusion Mr. McGavin said: "While I have engaged in some criticism of those particular ones who have made a mockery of the most sacred relations of life—of those not satisfied with any other name but 'Countess Maccaroni' I want to say one word in tribute to those true American women who have spurned the wiles of Earls, Lords and Counts for the love of His Majesty—an American citizen."

Present Officers Hold Over.

The attorney general of Oklahoma holds that the present city officials will hold and discharge their present duties as they have been until the governor orders an election, which will be the first Tuesday in April. The opinion was procured and sent to the mayor by State Representative Frank Huddleston. The same being submitted to ex-City Attorney T. D. McKeown was pronounced a correct interpretation of the law, in his judgment.

OKLAHOMA PROHIBITION ENFORCEMENT FINALLY PASSES HOUSE WITHOUT CLAUSE.

NEW MEASURES ARE OFFERED

Two Proposed Laws Introduced by Davis and by Agee and Morris. Substitute Is Prepared.

Guthrie, Ok., Jan. 28.—The prohibition enforcement bill came into the house this afternoon and was passed finally by a vote of 87 to 18, but failed with the emergency clause, which would give the law immediate effect. In the latter instance the vote was 68 to 37 lacking five votes of the necessary two-thirds. All but three republicans voted in the negative on the emergency. There were democratic members absent, Stivers, McCants, Ratcliff and Smith of Custer. It is stated tonight that the measure will be called up tomorrow afternoon in the house on a motion to reconsider, and will then pass with the emergency clause intact.

When the bill reaches the Senate the House changes will not be agreed to. It is generally conceded that the bill although originating in the senate, will when returned there, take the status of a new measure, and be subject to detail consideration.

Two new prohibition bills were offered in the senate today. One by Senator Davis lacks both the dispensary and enforcement commission features. It provides that railroad companies shall not deliver liquors in the state. To the state authorities is left the matter of enforcing the law. The bill follows the Kansas statutes.

The second bill was offered by Senators Agee and Morris, and attempts to cover both the dispensary and enforcement in about twenty sections. This bill permits druggists to handle liquors obtained at the state agencies, and contains a section whereby wholesale druggists may receive and handle liquors for the retail trade as they do any medicine.

Substitute Is Much Shorter.

There is prepared a substitute, however, which will be offered either in the senate or before the conference committee. This is much shorter than the pending bill, but covers practically the same grounds. It does not permit druggists to have whiskey, but they may possess alcohol for scientific purposes and for the preservation of drugs. This difference was contended for in the house. The substitute permits persons to purchase as much as a gallon and a half off beer and not to exceed a quart of whiskey at any one time, from the state dispensary in the regular way.

Friends of the pending measure are making known an indorsement of the bill has received from W. C. Trickett, Assistant Attorney General of Kansas, who is in charge of liquor violations in that state, in which he states it is the most complete enforcement code in existence.

Other work done by the house was the adoption of a resolution from the senate authorizing the investigation of a local furniture company's bills in connection with furniture purchased for the legislature and the administration building. The bill presented aggregates nearly \$40,000.

Final passage was obtained on Senator Eggerman's bill regulating the method of service upon defendants in civil cases. Among the bill introduced were two by Mr. Murray creating an office of fish and game warden and proposing a new game law, both recommended by the United States Board of Agriculture; a joint resolution by Mr. Murray submitting an amendment to the Oklahoma Constitution authorizing the legislature to enact laws for the registration of land titles, which will include the Torrens land system; by Mr. Vandeverter making the first Monday of September Labor Day, and Nov. 16, Statehood Day, both legal holidays; by Mr. Hawkins, appropriating \$210,000 for the support of Oklahoma's educational institutions; also providing that persons may change their names by making application to the district court.

A protest was received from W. C. Morgan of Clarendon, Tex., complaining of the alleged overcharges made

A RARE BARGAIN

SUITS AT \$6.00

by agents of telegraph, telephone and railroad companies, and asking the passage of a law governing such instances.

The senate spent the afternoon on Senator Taylor's fellow servant bill. It was amended so not to apply to corporations engaged in manufacturing, commerce, telephone companies or local transfer companies. It was made applicable to companies seeking oil or gas and to cotton seed oil mills. Senator Russell offered a resolution calling for the appointment of a committee of six to report on the advisability and practicability of the state to eating the remainder of the school institutions, except schools, in one spot. The Capitol of the state would be included in the report.

Mr. Hart in the house and Senator Morris in the senate introduced a bill creating a clearing house for banks and trust companies.

HON. GEO. C. CRUMP.

Leading Lawyer of Seminole, A Militant Democrat Candidate for Delegate to National Democratic Convention.

Than the Hon. Geo. C. Crump there are none, the News believes, who would reflect more creditably on the democracy of Seminole county, should it unitedly extend to him endorsement of his candidacy for delegate to the national convention. The fact of his close identity with the substantial affairs of his district and his being truly representative of the progressive, militant of the Bryan type-democratic spirit of Oklahoma, should award him the fullest consideration of his district caucus at the state convention. An acquaintance with the general accomplishments of Mr. Crump entitles an award of confidence.

MESSAGE DEALS WITH TAX.

Haskell Suggests Other Things Than Real Estate.

Guthrie, Ok., Jan. 28.—The legislature today received a message from the governor on the question of taxes for the ensuing year. The executive called attention that taxes have heretofore largely fallen on real estate and recommends that the state board of taxation be authorized to include franchises, inheritances, incomes, etc., which, he stated, makes up one of the most profitable classes for assessment. Under the constitution the legislature has authority to provide for taxing inheritances, revenue, incomes, legacies, etc.

Hardwood Lumber.

We can furnish you first class hard wood lumber for \$15.00 per thousand feet. Give us a trial. Saw mill east of Ada.

I. E. Wright is being tried before Justice Nettles this afternoon on the charge of attempt to rob. The complaining witness is Easias Edwards, a full blood Indian.

First published Jan. 25th, 1908. (11)

Notice of Sale.

By virtue of the authority vested in me under and pursuant of an order issued out of the County Court for the County of Carter, State of Oklahoma, sitting in probate; the said order of sale having been made on the 23d day of January, 1908, directing me as guardian of the estates of Samuel Hickman and Atchison Hickman, minors, to sell all of their right, title and interest in and to the following described lands, situate in Stephens County, State of Oklahoma, and more particularly described as follows, to-wit: The sw-4 of ne-4; w-2 of se-4 of ne-4, nw-4 of se-4; of se-4; w-2 of ne-4 of se-4; n-2 of sw-4 of se-4 and nw-4 of se-4 of se-4. And s-2 of nw-4 of nw-4; n-2 of sw-4 of nw-4; sw-4 of ne-4 of nw-4 and nw-4 of se-4 of nw-4 all in Section 25, T 1 S, R 5 W, situate in Stephens county, Oklahoma, consisting of 210 acres more or less.

And s-2 of se-4 of Section 25, T 5 N, R 4 E. And the n-2 of ne-4 of ne-4, and ne-4 of nw-4 of ne-4 of Section 36, T 5 N, R 4 E, consisting of 110 acres, more or less, situate in Pontotoc County, Oklahoma.

The said interest of Samuel and Atchison Hickman being an undivided one-half interest in fee.

I will proceed to sell the same at public outcry before the court house door, in the County of Stephens, City of Duncan, between the hours of 9 a. m. and sunset of the 4th day of March, 1908. The said sale being made for cash and being subject to the approval of the County Court for the County of Carter, State of Oklahoma.

Witness my hand this 23d day of January, 1908.

WATSON, BILLY,

Guardian of the Estates of Samuel and Atchison Hickman, Minors.

CANNON ON GRILL

TEXAN PLAYS SPEAKER, CHARGING HIM WITH HOLDING UP BILLS FAVORING MASSES.

TAUNTS THE REAUBLICANS

Declares They Fear to Enact Legislation Favored by Taft, "Next Candidate."

Washington, Jan. 28.—Congressman Henry of Texas took advantage of the latitude allowed during the consideration of the urgent deficiency appropriation bill this morning to assail the republicans for their failure and their refusal to give consideration to any of the bills demanded by the laboring interests of the country.

He was especially severe in denunciation of the action of the judiciary committee, under the direction of the speaker in burying deeper every year his (Henry's) bill providing that no writ of injunction should issue without reasonable previous notice to the adverse party.

Mr. Henry showed that this was the law for eighty-one years, but that it was omitted in a codification of criminal statutes.

He read from a recent letter of Secretary Taft in which he subscribed to the bill, and taunted the republicans with being afraid to enact a law which was favored by their next candidate for the presidency. He declared that the laboring people had a right to this relief, and he predicted that it would be given, if not by the republicans under coercion, then by the democrats, whom they would put in power. Mr. Henry said he had received letters from Federal Judges in all parts of the country indorsing the principle of the bill.

"Is the republican speaker ready to give ear to the demands of the people who have called for this legislation year after year?" Mr. Henry exclaimed, and the whole democratic side applauded lustily.

Another bill of his, which Mr. Henry said had been buried under the auspices of the speaker, was that providing that no federal judge should issue an injunction or restraining order against a state officer or enjoin the enforcement of a state statute until the merits of the case had been determined.

Mr. Henry spoke for thirty minutes and when he concluded was loudly applauded on the democratic side.

Mr. London writes: "If I owned your Tea, I would guarantee a cure or refund their money. I say it's Nature cure and the only one for the blood." Hollister's Rocky Mountain Tea cured him where other remedies failed. "Nuff said." G. M. RAMSEY.

Nature paint in colors bright,

Indigestion

Stomach trouble is but a symptom of, and not a true disease. We think of Dyspepsia, Heartburn, and Indigestion as real diseases, but they are symptoms only of a certain specific nerve sickness—nothing else. It was this fact that first correctly led Dr. Shoop to the stomach nerves, alone brought this success and favor to Dr. Shoop and his Restorative. Without that original and highly vital principle, no such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and sallow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—and see for yourself what it can and will do. We sell and cheerfully recommend.

From the Baptist Journal.

More knowledge may be gained of a man's real character, by a short conversation with one of his servants, than from a formal and studied narrative, begun with his pedigree, and ended with his funeral.—Dr. Johnson. Nor is it always in the most distinguished achievements that men's virtues or vices may be best discerned; but very often an action of small note, a short saying, or a jest, shall distinguish a person's real character more than the greatest sieges, or the most important battles.—Plutarch.

The Dallas Morning News can be found on sale at the Postoffice news stand and Ramsey's drug store. Subscribers may get papers at Ramsey's.

On the day when he last entered the Atlantic office, in January, Mr. Aldrich seemed, for the first time, to have grown old. One of his friends spoke of it as he went out. Up till that morning, the weight of 70 years had scarcely seemed to touch the erect, jaunty figure. The lines that time had written around his clear blue eyes and firm mouth conveyed no hint of senility. His hair was scarcely gray. His voice, slightly husky in its graver, sweeter tones, retained a delicious, youthful crispness as it curled and broke, wave-like, into flashing ratiery. He had just completed his poem for the Longfellow centenary, his first verse after some years of silence, and when it was praised to his face—for who could help praising it?—he blushed with pleasure like a boy. Yet he had passed three-score and ten, and the shadow, visible as yet and quite unheralded, was drawing very near.—Bliss Perry, in Atlantic.

THEY ALL RAN.

Horses and Men Get Scared—Much Doing.

About 8:30 a. m. the gray buggy horse of Jno. Chapman got frightened near the oil mill on Townsend and when a line broke Mr. Chapman jumped and old gray paraded the streets in good and swift fashion.

Turning up Main street from Townsend he made a dash for I. Harris' store, but deciding Ike did not have what he wanted, he suddenly turned across Main and made a bee line for Mason's drug store. He did not choose to enter the door but attempted to gain entrance in through the glass front. He pushed a large glass out and got as far inside as he could. Frank Maddox and Ed Hunter who were in the place did their dead level best to beat each other out the back door. When they got their nerve settled however, they assisted gray out of the show window. But this was not half. Old gray had just begun the horse show. Ed Hunter had left old bay standing unhitched and more fun began when he led the dirty clothes wagon a merry chase down Main. All went well until a collision occurred; the dirty clothes wagon vs. Millhuff's grocery wagon. This was loaded with hay and when the two got together, spokes, dirty shirts and hay were scattered to the other side of the street. All this was two much fun for Grand Pa Wheeler's old plow horse which was standing near by and he came upon the scene with his plow bounding in the air, now and then digging into the earth for a chunk of earth.

Results: Three vehicles smashed, two horses injured and Frank Maddox and Ed Hunter scared half to death. For further particulars see Bud Gregg.

Harris-Randol.

Tuesday evening about 8 o'clock there was a marriage at the home of Rev. T. B. Harrell, the officiating minister, the parties being Mr. O. H. Harrie of Teague, Tex., and Miss Lottie Randol of Ardmore.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO, Toledo, Ohio.

Sold by all druggists, 75c.

Take Hall's Family Pills for constipation.

When the Stomach, Heart or Kidney nerves get weak, these organs always fail. Don't drug the Stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Notice Lawyers.

The News would appreciate you having your legal notices of all descrip-

tions published in its columns. We guarantee to reach more people than any other newspaper in the county.

REVIVALS.

From the Baptist Journal.

Revivals are not confined to times or to seasons, to places or to people. A genuine revival of religion may be in summer as well as in winter, in a grove or in a tent as well as in a town or city. We are accustomed, however to think of the opening weeks of the new year as the only time to expect or to plan a revival, because revivals have usually taken place at this season, often growing out of the week of prayer, that was formerly very generally observed in the first week of January. Then the minds of the people are thoughtful, impressionable, serious, at the review of the year just closed, and at the contemplation of the uncertainties of the year opening before them.

But revivals do not spring out of the ground. Nor do they often come from the East or the West, like the wind that bloweth. "but canst not tell whence it cometh and whither it goeth." Neither do they come down from heaven, except after earnest and continued "prayers and supplications with strong crying and tears." There must be preparation, thoughtful, patient, skillful and judicious often consuming much time and strength, and wearing upon brain and body. The soil, the climate and latitude have much to do with the kind of crop to be raised. In every case, however, if any harvest worth while is to be reaped, there must be persistent, intelligent effort from the time of preparation of the soil until the gathering in of the last shock of grain.

D. J. A.

THE "SECRET OF SECRETS"

In Store Advertising.

One of the wisest of men wrote:

"Suffer any person to tell us his story, morning and evening, for but a twelve-month, AND HE WILL BECOME OUR MASTER!"

In the above sentence we have, in a nutshell, the INNERMOST SECRET OF SUCCESSFUL ADVERTISING—frequency, and persistence, and unvarying continuity in the telling of the story of store or enterprise. There are many other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret—

THE HEART OF THE WHOLE MATTER!

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

Trial Catarrh treatments are being proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh out free, on request, by Dr. Shoop, Racine, Wis. These tests are tarrh Remedy. Sold by G. M. Ramsey.

DRINK HABIT AMONG WOMEN ON INCREASE

GROWTH OF DANGEROUS EVIL IS SEEN

Prof. Quackenbos and Dr. Parkhurst Join in Deploring Present Conditions—"Common Among All Classes," Declares the Former Columbia Professor—Testimony of the Present Superintendent of Bellevue Hospital.

NEW YORK.—According to Prof. John Duncan Quackenbos, specialist in nervous and mental diseases, member of many American and foreign medical societies, and formerly of the Columbia university faculty, the drink habit is spreading at an alarming rate among the women of New York. To a representative of the Sunday World he said:

JOHN D. QUACKENBOS

have been in a position to watch that growth closely and I can say with full knowledge that ten women drink to-day where one drank a dozen years ago.

"The growth of the habit has been among women of all classes, the rich

bowl, however, is not to be blamed entirely. Many women dip into it and may do it many times without acquiring the drink habit, but many get their start there. It does give them the taste of liquor and then, with many of them, the taste for liquor.

"Now, the tendency of the American woman is to go to extremes, and in drinking she over-drinks. It is dangerous for her to touch liquor at all. This is particularly true of the New York woman, because of the added excitement of life in New York. "It is not my object to preach unless the mere statement of fact is a sermon, and the fact is New York women do drink, or rather too large a percentage of them drink, and drink to excess. If one doubts it let him go to any of our large hotels and restaurants any night and look about him. On every hand you find them and their sister visitors to New York drinking. No one thinks anything about it, and the women think they are simply doing the proper thing. Many of them drink just because they do think that way and many of them drink because they like the liquor.

Do Not Want to Be Cured.

"I have treated in the last eight years 700 cases of alcoholism, with a large percentage of women, and I found in many cases where the patient was a woman that she did not, deep down in her heart, want to be cured of the habit. This fact is true especially in the case of the rich society woman. She usually comes to me either at the urgent solicitation of relatives or friends, or with only a surface desire to be rid of the habit. Very few of them honestly and truly, and with their whole heart, want to be cured.

"For instance, a certain woman came to me for treatment for the drink habit and seemed sincere indeed. I treated her by auto-suggestion, giving her the suggestion that she could not lift a wineglass to her lips. She went away and the very next night

tations of whisky were judged to be the real thing.

"It stands to reason, of course, that the great proportion of the liquor sold is counterfeit, when it is known that the consumption is far in excess of the ability of distillers and brewers to produce the genuine product. Adulterations and criminal counterfeits must be resorted to in order to meet the demand. I will wager that there have been inmates of Bellevue's alcoholic ward who have never tasted a drop of real whisky in their lives. They just think they have been drinking whisky, and if they had been drinking real whisky the chances are they would never have been in Bellevue. I don't say that real whisky, if taken excessively, is not harmful, but I do say that a man could drink the pure article in moderation all his life and not be hurt by it. Why, 15 drinks of pure whisky would not do a man the harm that one drink of this vile stuff they sell for whisky in New York would do him.

Poisoned by Vile Liquor.

"I know a man who left his office one evening all tired out, dropped into

dull, sunken eyes and pinched faces, and the continuance of the use of the drug leads to nervous wreckage, delirium and insanity."

LETTER POSTED 32 YEARS AGO.

Crossed Ocean Many Times Before Delivery to Sea Captain.

A letter posted at Garmstad, Norway, 32 years ago to Capt. Thomas Nielsen of the bark Harmonia, and which has traveled across the Atlantic to and fro many times in pursuit of him, was delivered to Thomas Nielsen, a carpenter of the revenue cutter Manhattan of the local service, says a New York dispatch to the St. Louis Globe Democrat. It was the right envelope, and the joint letter it contained brought the mist to his eyes with the "news" it told of old friends and relatives in Norway, many of whom are now dead.

Capt. Nielsen is now 68 years old, and has been retired from the sea for many years. The letter was from his wife, Alvina, and his brother John, who wrote to tell of an accident to an-

"A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes."—Dr. Quackenbos.

a saloon of the best class and took only two drinks of their bar whisky and was lost for four days. I was called in to help find him, as he was a friend of mine, and when we found him he was in a pitiable condition, his mind was clouded, he could not remember where he had been or what he had done after leaving that saloon. He only remembered that he had taken two drinks of whisky.

"The beer drinker, if he gets real beer, is handed a glass of the beverage which, to meet the demands of trade, is put out too new and improperly fermented. Beer should be kept in the keg for six months before being sold to the drinker.

"It is rather surprising how many of our school children have become beer drinkers, especially those of foreign birth, and the habit is making them mentally sluggish to a degree that is attracting the attention of educators and philanthropists.

"Another habit which is getting control of our shop girls particularly is the cocaine habit. This habit has grown in the last few years with such rapidity that to-day thousands of young girls as well as mature women and men are held in its clutches. The effect of the habit is noted in the

other brother, Nicholas, who had returned from a sea trip with a broken leg. All three brothers are now employed on the Manhattan, and the wife, now an elderly woman, is living with her husband in Brooklyn.

The envelope containing the letter was covered with postmarks, many of them so faded that they could not be made out. It was directed originally to Minoteton, Mexico, in care of the Swedish consul, but had been directed so many times there was no further space, and when it was returned to Garmstad for the sixth time last June it had to be inclosed in an other cover. The letter, which was posted January 9, 1875, had been opened and sealed with Mexican stamps bearing the date of 1876.

A Bargain.

"What!" exclaimed the husband. "You drew your savings from the bank, went to a broker's office, and bought Z, X, and Y. stock at 14, when it has been dropping like a rock?"

"But, my dear," argued the wife. "It was such a bargain. Why, during the short time I was in the office I saw the man mark it down to 14 from 45!"—Success Magazine.

Dr. Parkhurst Says "It Is a Fact"

WHEN a representative of the Sunday World read portions of Dr. Quackenbos' article to Rev. Dr. Charles Parkhurst he said:

"It is undoubtedly true, and a deplorable fact, that the drink habit is growing rapidly among the women of New York.

"I have not made a real investigation, as Dr. Quackenbos has, but one does not have to investigate; it is a fact which stares you in the face, it is all on the surface, and one cannot overlook it.

"A chief reason for this increase in the number of women who drink is, I believe, that there has been too much prosperity. Of course, just now we are passing through a period of 'hard

Rev. Dr. Charles Parkhurst.

times,' so to speak, but before the panic for a number of years the country was most prosperous, everybody had money, and life became too easy. When life is made too easy we are in a danger zone and more prone to give way to temptation. That long period of prosperity made us too material, also turned the desires of many only

to what they could see and eat and drink.

"I suppose the growth of the drink habit has been principally among the women of the richer classes. It is at least reasonable to believe so, as they have the money and time to indulge in such laxity. Idleness is usually dangerous.

"Another phase in the drink question is the quality of the liquor. Dr. Quackenbos points out the shameless adulteration in whisky, but let me ask why it is tolerated? Where is our pure food law? Why, it is in our statute books, but it isn't in the hearts or minds of those in authority or in the hearts or minds of the people who put those men in authority. If it were, the law would be enforced.

"The growing tendency of the American people is a disrespect for laws. We have plenty of good laws, but they are not enforced. That is the whole trouble. The men who should enforce them do not do it, and the people who elect those men to office do not make them do it, and they keep on electing men who will not do it.

"Our mayor is sworn to be active in the enforcement of the laws, but is he? He is not. Well, if the mayor is inactive can you expect those under him to be otherwise? He is the man to whom the lesser officials look, and if he sets such an example, what is the result? Inactivity all along the line and our laws become mere printed matter.

"We also send incompetency to our legislative bodies in Albany. We have done so for years and probably will keep on doing so. We know that we are doing it and have little or no respect for a large majority of the men we send there, so how can we have respect for the laws they make? We cannot have respect for those laws and we have not."

HAS DONE MUCH FOR HIS COUNTRY

JOAQUIN FRANCO, DICTATOR OF PORTUGAL.

Premier Franco of Portugal has given a new meaning to the word "dictator," showing that it not always stands for tyranny, oppression and burdensome taxation, but that a dictator may be a patriot and further the cause of good government, official purity and the welfare of the common people. Through the extraordinary powers conferred on him by King Carlos, Franco has been able, apparently, to overcome the grafters who have been preying upon the public purse no matter what party was in power.

VASTNESS HARD TO CONCEIVE.

Camille Flammarion's Illustration of the Depths of Space.

Taking the earth as a starting point, we will go in a straight line to any point of the heavens. We start. At the end of the first second, traveling as we are with the velocity of light, we have already gone 186,000 miles; at the end of the second, 372,000. We continue. Ten seconds—a minute—ten minutes have elapsed—11,600,000 miles have been passed. Carried on without stopping by this same rapidity of 186,000 miles each second, let us penetrate the expanse in a straight line for whole years, 50 years, even a century. Where are we? For a long time we have gone beyond the last starry regions which are seen from the earth. No mind is capable of following the road passed over; thousands of millions joined to thousands of millions express nothing. . . . but we have not advanced a single step in space. We are no nearer a limit than if we had remained in the same place.—Camille Flammarion.

Will Review Past Work.

It is understood that at the June meeting of the General Federation of Women's Clubs in Boston a leaf from the recent program of the Association of Collegiate Alumnae will be copied and the same order of precedence followed. There will be a discussion

HAD FUN WITH THE INSPECTOR.

Swedish Girl Was No Smuggler, but She Made Trouble.

A girl who has just returned from studying abroad in Sweden got even with the New York customs inspector who was too inquisitive regarding her purchases on the other side. Although she was a mild and innocent appearing person, yet the customs inspector seemed to suspect deceit in her appealing glance.

So when he came across what the girl told him was a nest of Swedish baskets he seemed to think he had surely caught his victim red handed. He opened the basket and somewhat to his surprise discovered another.

He opened it and kept on opening baskets until the seventeenth was reached. "Here," his triumphant glance seemed to say, "is where I make good." The seventeenth and last basket, not much larger than a silver dollar, was opened and—discovered empty. Then he had the pleasure of replacing them all, while the girl took malicious pleasure in looking on.

Walked Fourteen Miles to Preach.

When Rev. Samuel Unsworth of the Trinity Episcopal church found himself at Verdi with a wreck at Calvada, which would prevent his reaching Reno by train in time to occupy his pulpit for the services, he took off his long black coat and putting it un-

IN MEMORY OF GREAT EDUCATOR

Harper Memorial Building, University of Chicago.

upon the past work, with papers and discussions. Then the present things to be considered and the work of the immediate future will form a class by itself on the program. It will certainly be interesting to hear a review of the work of the clubs for the last 30 years.

Out of It.

"Mrs. Jinks no longer in society? How strange!"

"It's her own fault. She would be a faddist. Devoted to home and husband and that sort of thing."

"Still, I don't see—"

"My dear, I haven't told the worst. She had a baby just at the height of the bridge season."

"Well, well!"

Al-most an Insult.

"What's the matter, Algy?"

"Why, dash it all, that big girl over yonder, don't ye know, she asked me if I had a powder rag with me!"

Right Denomination.

To the astonishment of Brother Johnson, who had taken up the collection, a bill was found in the basket.

"Somebody," he said to the clergy man, "done got religion for de first time en drapped in er note."

"A note!" exclaimed the dominie. "What denomination mought it be, brother?"

"Huh!" sniffed Brother Johnson. "What denomination? Why, Baptists, o' co'se. How could hit be enny oder denomination when dis am er Baptists' meetin'."—Philadelphia Ledger.

New Yorkers Becoming Hysterical

BY DR. S. T. ARMSTRONG.
(Superintendent of Bellevue and the Allied Hospitals.)

THE New Yorkers are becoming a hysterical people. They show an increasing excitability, a diminishment of self control. This demonstrates itself in all forms of excesses. Less and less restraint is exercised. The extreme tension of life here is showing on the people. One sees plenty of examples of this in individual life. A vast demonstration of it among a mass of the people is observed in the increasing hysteria of such celebrations as those of the night before the New Year. What is true of the city men is true of the city women. The increase of drunkenness is a distressing fact. It is a natural outcome of the restlessness, the overstriving, the unrestraint of present day life in New York.

This subject is of tremendous importance. We should know just what we are confronting, what the future has in store for us, just where and how we are threatened. One may form an opinion as to an increasing inebriety among women from such exhibitions as those of New Year's eve, but beyond that it is not easy to go. There are no official statistics bearing on the question. The subject has had no investigation of scientific value. One cannot speak exactly as to condi-

tions, or to make comparisons between the present and the past. The records of the alcoholic and psychopathic wards of Bellevue hospital do not show the facts of inebriety even among the classes of men and women who would seek aid from this hospital. In 1904 there were 8,941 admissions to Bellevue for various forms of alcoholism. The number now is greatly less than that. In 1906 it had fallen to 6,653. But even with this reduction the number of alcoholic patients is more than 25 per cent. of all the patients admitted to Bellevue. But these records prove nothing in the line we would follow. The number of inebriates who seek treatment at Bellevue has fallen off simply because an old offender who comes here is now liable to be turned over to a city magistrate, who will sentence him to an asylum as a chronic drunkard. This had the effect especially of keeping many women from taking repeated advantage of treatment at Bellevue.

What is the cure of the evil of increasing inebriety in New York? Whatever will bring easement to the restless life in the city will lessen all forms of dissipation. The whole subject needs careful and thorough investigation to know what palliative measures can be taken. Drinking is only one symptom of what is wrong with us.

and the poor, young and old. Girls in their teens evidently see no impropriety whatever in drinking publicly with men companions. Very often indeed I have had young girls brought to me for treatment, hysterically drunk.

"I have treated within a year women whose weekly bill for champagne alone was \$100 and who filled up the intervals between their draughts of wine with highballs and cocktails. One woman drank a quart of champagne every morning, and when ready to go out her custom was to order her maid to bring her another quart. Then before leaving the house to enter her carriage she would empty the bottle to 'steady her nerves.'

Girls Indulge in Liquor.

"School misses and college girls in great numbers are among the throng of women drinkers. A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes.

"As everyone knows, the punch bowl figures largely in the growth of the drink habit among women of New York. It is found at all functions, and many a girl has got her first taste of liquor by a dip into it. The punch

she went with a man companion to one of our large restaurants, made no objection whatever when wine was ordered, and even tried her best to overcome the suggestion I had given her and drink the wine. But she found that she could not lift the glass from the table. You see, she did not really and honestly want to be cured and wasted but little time in rushing into temptation.

"Conditions might not be so bad, however, if women or men drank real, pure whisky, real, pure wine and real, pure liquors of all sorts, but they don't. They think they do, but what they are really drinking is a deadly poison and one swift in its execution. I feel safe in saying that out of 100 drinks sold in New York city as whisky not more than one is the real article.

Counterfeit Whisky.

"But so cleverly is whisky counterfeited to-day that club connoisseurs cannot detect it, as was shown in an experiment made recently by Dr. Darlington of the board of health. Dr. Darlington went around and collected a number of samples of whisky from saloons of all classes, took the samples to his club, where he had several of the members test them, and much to his surprise the cheap 'cat-

FLAYS MIXED UNIONS EMERGENCY IS LOST

CONGRESSMAN DENOUNCES INTERNATIONAL MARRIAGES ON FLOOR OF HOUSE.

BRANDS WEDDING BARGAINS NEW MEASURES ARE OFFERED

Pays Tribute to American Girls Who Have Spurned Titles for Home Grown Husbands.

Washington, Jan. 28.—International marriages of American heiresses to titled foreigners were denounced on the floor of the house of representatives today by Mr. McGavin of Illinois, who spoke on the bill of his colleague Mr. Sabbath, to tax all dowries and titled husbands.

His remarks were made under license of general debate. At times they provoked laughter and applause on both sides of the chamber.

The house, he said, was in committee of the whole on the state of the union, but he wanted to know what the state of the union was and what it was coming to, "in view of these international unions between American heiresses and alleged nobles from abroad." He wondered what the early pioneers would think and say if, from their graves they could look back and see so many of the women of this country "sacrificing their souls and honor upon the altar of snobbery and vice."

He expressly stated that he had no reference to any particular American girl, nor had he prejudice against all titled men, but he referred "only to those who have a monocle in their eye and an idiotic look upon their faces—those who have neither the disposition to do good nor the ability to do harm."

He said his curiosity had been aroused to know the right committee to which they should have gone, but he had found that it properly had gone to the committee on Ways and Means because it sought to levy a tax. And then, Mr. McGavin said he was curious to know whether the present tariff schedule included Dukes, Earls, Lords and Counts. "Finding that these things were nowhere mentioned, I thought it might be proper for the customs officials to classify them like frogs' legs or as poultry, for it is a general opinion among Americans that they are a species of goose."

Mr. McGavin said the United States triumphantly has deferred to the fact that as between it and other nations the balance of trade was in its favor, "but," he said, "nowhere in the summary can be found a reference to such trade as that in which soiled and frayed nobility is exchanged for a few million American dollars, wrung from the lambs of Wall street, with a woman thrown in to boot."

Every day, he declared, seemed to be a bargain day in New York City, whether it be for a yard of ribbon or a pound of flesh; whether it be upon the retail counter or Broadway or the auction block of Fifth avenue.

In these days, he said, wealthy American girls traveling abroad, when they see some remnant of royalty, enthusiastically exclaim: "Oh, mamma, buy me that."

An interpreter is then secured, a bargain is made, the money is paid and the girl is gone, to soon return a sad but wiser one.

In conclusion Mr. McGavin said: "While I have engaged in some criticism of those particular ones who have made a mockery of the most sacred relations of life—of those not satisfied with any other name but 'Countess Macaroni'—I want to say one word in tribute to those true American women who have spurned the wives of Earls, Lords and Counts for the love of His Majesty—an American citizen."

Present Officers Hold Over.

The attorney general of Oklahoma holds that the present city officials will hold and discharge their present duties as they have been until the governor orders an election, which will be the first Tuesday in April. The opinion was procured and sent to the mayor by State Representative Frank Huddleston. The same being submitted to ex-city Attorney T. D. McKown was pronounced a correct interpretation of the law in his opinion.

OKLAHOMA PROHIBITION ENFORCEMENT FINALLY PASSES HOUSE WITHOUT CLAUSE.

Two Proposed Laws Introduced by Davis and by Agee and Morris. Substitute Is Prepared.

Guthrie, Ok., Jan. 28.—The prohibition enforcement bill came into the house this afternoon and was passed finally by a vote of 87 to 18, but failed with the emergency clause, which would give the law immediate effect. In the latter instance the vote was 68 to 37 lacking five votes of the necessary two-thirds. All but three republicans voted in the negative on the emergency. There were democratic members absent: Stivers, McCants, Hatchett and Smith of Custer. It is stated tonight that the measure will be called up tomorrow afternoon in the house on a motion to reconsider, and will then pass with the emergency clause intact.

When the bill reaches the Senate the House changes will not be agreed to. It is generally conceded that the bill although originating in the senate, will when returned there, take the status of a new measure, and be subject to detail consideration.

Two new prohibition bills were offered in the senate today. One by Senator Davis lacks both the dispensary and enforcement commission features. It provides that railroad companies shall not deliver liquors in the state. To the state authorities is left the matter of enforcing the law. The bill follows the Kansas statutes.

The second bill was offered by Senators Agee and Morris, and attempts to cover both the dispensary and enforcement in about twenty sections. This bill permits druggists to handle liquors obtained at the state agencies, and contains a section whereby wholesale druggists may receive and handle liquors for the retail trade as they do any medicine.

Substitute Is Much Shorter.

There is prepared a substitute, however, which will be offered either in the senate or before the conference committee. This is much shorter than the pending bill, but covers practically the same grounds. It does not permit druggists to have whiskey, but they may possess alcohol for scientific purposes and for the preservation of drugs. This difference was contended for in the house. The substitute permits persons to purchase as much as a gallon and a half of beer and not to exceed a quart of whiskey at any one time, from the state dispensary in the regular way.

Friends of the pending measure are making known an indorsement of the bill has received from W. C. Trickett, Assistant Attorney General of Kansas, who is in charge of liquor violations in that state, in which he states it is the most complete enforcement code in existence.

Other work done by the house was the adoption of a resolution from the senate authorizing the investigation of a local furniture company's bills in connection with furniture purchased for the legislature and the administration building. The bill, presented aggregates nearly \$10,000.

Final passage was obtained on Senator Eggerman's bill regulating the method of service upon defendants in civil cases. Among the bill introduced were two by Mr. Murray, creating an office of fish and game warden and proposing a new game law, both recommended by the United States Board of Agriculture; a joint resolution by Mr. Murray submitting an amendment to the Oklahoma Constitution authorizing the legislature to enact laws for the registration of land titles, which will include the Torrens land system; by Mr. Vandevern making the first Monday of September Labor Day, and Nov. 16, Statehood Day, both legal holidays; by Mr. Hawkins, appropriating \$250,000 for the support of Oklahoma's educational institutions; also providing that persons may change their names by making application to the district court.

A protest was received from W. C. Morgan of Cherokee, Tex., complaining

by agents of telegraph, telephone and railroad companies, and asking the city and practicability of the state to enact a law governing such instances.

The senate spent the afternoon on Senator Taylor's fellow servant bill. It was amended so not to apply to corporations engaged in manufacturing, commerce, telephone companies or local transfer companies. It was made applicable to companies seeking oil or gas and to cotton seed oil mills. Senator Russell offered a resolution calling for the appointment of a committee of six to report on the advisability

and practicability of the state to enact a law governing such instances.

The Capitol of the state would be included in the report.

Mr. Hart in the house and Senator Morris in the senate introduced a bill creating a clearing house for banks and trust companies.

Prayer Meeting.

Rev. W. M. P. Rippey of Okmulgee will conduct the service at the Methodist church tonight. Everybody cordially invited to be present.

PLAYS MIXED UNIONS EMERGENCY IS LOST

CONGRESSMAN DENOUNCES INTERNATIONAL MARRIAGES ON FLOOR OF HOUSE.

BRANDS WEDDING BARGAINS NEW MEASURES ARE OFFERED

Pays Tribute to American Girls Who Have Spurned Titles for Home Grown Husbands.

Washington, Jan. 28.—International marriages of American helmsmen to titled foreigners were denounced on the floor of the house of representatives today by Mr. McGavin of Illinois, who spoke on the bill of his colleague Mr. Sabbath to tax all dowries and titled husbands.

His remarks were made under license of general debate. At times they provoked laughter and applause on both sides of the chamber.

The house, he said, was in committee of the whole on the state of the union but he wanted to know what the state of the union was and what it was coming to in view of these international unions between American helmsmen and alleged nobles from abroad. He wondered what the early pioneers would think and say if from their graves they could look back and see so many of the women of this country sacrificing their souls and honor upon the altar of snobbery and vice.

He expressly stated that he had no reference to any particular American girl nor had he prejudice against all titled men but he referred only to those who have a monocle in their eye and an idiotic look upon their faces—those who have neither the disposition to do good nor the ability to do harm.

He said his curiosity had been aroused to know the right committee to which they should have gone, but he had found that it properly had gone to the committee on Ways and Means because it sought to levy a tax. And then Mr. McGavin said he was curious to know whether the present tariff schedule included Dukes, Earls, Lords and Counts. "Finding that these things were nowhere mentioned I thought it might be proper for the customs officials to classify them like frogs legs or as poultry for it is a general opinion among Americans that they are a species of goose."

Mr. McGavin said the United States triumphantly had deferred to the fact that as between it and other nations the balance of trade was in its favor but he said nowhere in the summary can be found a reference to such trade as that in which soiled and frayed nobility is exchanged for a few million American dollars wrong from the lambs of Wall street with a woman thrown in to boot.

Every day he declared, seemed to be a bargain day in New York City whether it be for a yard of ribbon or a pound of flesh, whether it be upon the retail counter or Broadway or the auction block of Fifth avenue.

In these days he said wealthy American girls traveling abroad, when they see some remnant of royalty, enthusiastically exclaim: Oh mamma buy me that.

An interpreter is then secured a bargain is made the money is paid and the girl is gone to soon return a sad but wiser one.

In conclusion Mr. McGavin said: While I have engaged in some criticism of those particular ones who have made a mockery of the most sacred relations of life—of those not satisfied with any other name but 'Countess Maccaroni' I want to say one word in tribute to those true American women who have spurned the wiles of Earls, Lords and Counts for the love of His Majesty—an American citizen.

Present Officers Hold Over.

The attorney general of Oklahoma holds that the present city officials will hold and discharge their present duties as they have been until the governor orders an election, which will be the first Tuesday in April. The opinion was procured and sent to the mayor by State Representative Frank Huddleston. The same being submitted to ex-city Attorney T. D. McKee was pronounced a correct interpretation of the law. In the

OKLAHOMA PROHIBITION ENFORCEMENT FINALLY PASSES HOUSE WITHOUT CLAUSE.

Two Proposed Laws Introduced by Davis and by Agee and Morris. Substitute Is Prepared.

Guthrie, Ok., Jan. 28.—The prohibition enforcement bill came into the house this afternoon and was passed finally by a vote of 87 to 18, but failed with the emergency clause, which would give the law immediate effect. In the latter instance the vote was 68 to 37 lacking five votes of the necessary two-thirds. All but three republicans voted in the negative on the emergency. There were democratic members absent, Silvers, McCanta, Ratcliff and Smith of Custer. It is stated tonight that the measure will be called up tomorrow afternoon in the house on a motion to reconsider and will then pass with the emergency clause intact.

When the bill reaches the Senate the House changes will not be agreed to. It is generally conceded that the bill although originating in the senate will when returned there take the status of a new measure and be subject to detail consideration.

Two new prohibition bills were offered in the senate today. One by Senator Davis lacks both the dispensary and enforcement commission features. It provides that railroad companies shall not deliver liquors in the state. To the state authorities is left the matter of enforcing the law. The bill follows the Kansas statutes. The second bill was offered by Senators Agee and Morris and attempts to cover both the dispensary and enforcement in about twenty sections. This bill permits druggists to handle liquors obtained at the state agencies and contains a section whereby wholesale druggists may receive and handle liquors for the retail trade as they do any medicine.

Substitute Is Much Shorter.

There is prepared a substitute however, which will be offered either in the senate or before the conference committee. This is much shorter than the pending bill but covers practically the same grounds. It does not permit druggists to have whiskey but they may possess alcohol for scientific purposes and for the preservation of drugs. This difference was contended for in the house. The substitute permits persons to purchase as much as a gallon and a half of beer and not to exceed a quart of whiskey at any one time, from the state dispensary in the regular way.

Friends of the pending measure are making known an endorsement the bill has received from W. C. Trickett, Assistant Attorney General of Kansas, who is in charge of liquor violations in that state in which he states it is the most complete enforcement code in existence.

Other work done by the house was the adoption of a resolution from the senate authorizing the investigation of a local furniture company's bills in connection with furniture purchased for the legislature and the administration building. The bill presented aggregates nearly \$40,000.

Final passage was obtained on Senator Eggerman's bill regulating the method of service upon defendants in civil cases. Among the bill introduced were two by Mr. Murray, creating an office of fish and game warden and proposing a new game law, both recommended by the United States Board of Agriculture, a joint resolution by Mr. Murray submitting an amendment to the Oklahoma Constitution authorizing the legislature to enact laws for the registration of land titles which will include the Torrens land system, by Mr. Vandeventer making the first Monday of September Labor Day and Nov. 16, Statehood Day, both legal holidays, by Mr. Hawkins, appropriating \$250,000 for the support of Oklahoma's educational institutions, also providing that persons may change their names by making application to the district court.

A protest was received from W. C. Morris of Claremore, Ok., containing

The Shoe Man

THEY ALL RAN.

Horses and Men Get Scared—Much Doing.

About 8:30 a. m. the gray buggy horse of Jno. Chapman got frightened near the oil mill on Townsend and when a line broke Mr. Chapman jumped and old gray paraded the streets in good and swift fashion.

Turning up Main street from Townsend he made a dash for I. Harris' store, but deciding like did not have what he wanted, he suddenly turned across Main and made a bee line for Mason's drug store. He did not choose to enter the door but attempted to gain entrance in through the glass front. He pushed a large glass out and got as far inside as he could. Frank Maddox and Ed Hunter who were in the place did their dead level best to beat each other out the back door. When they got their nerve settled however, they assisted gray out of the show window. But this was not half. Old gray had just begun the horse show. Ed Hunter had left old bay standing unbitched and more fun began when he led the dirty clothes wagon a merry chase down Main. All went well until a collision occurred; the dirty clothes wagon vs. Millhuff's grocery wagon. This was loaded with hay and when the two got together, spokes, dirty shirts and hay were scattered to the other side of the street. All this was two much fun for Grand Pa Wheeler's old plow horse which was standing near by and he came upon the scene with his plow bounding in the air, now and then digging into the earth for a chunk of earth.

Results: Three vehicles smashed, two horses injured and Frank Maddox and Ed Hunter scared half to death. For further particulars see Bud Gregg.

Harris-Randol.

\$100 REWARD, \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO, Toledo, Ohio.
Sold by all druggists, 75c.
Take Hall's Family Pills for constipation.

When the Stomach, Heart or Kidney nerves get weak, then these organs always fail. Don't drag the Stomach, nor stimulate the Heart or Kidneys. That is simply a makeshift. Get a prescription known to druggists everywhere as Dr. Shoop's Restorative. The Restorative is prepared expressly for these weak inside nerves. Strengthen these nerves, build them up with Dr. Shoop's Restorative—tablets or liquid—and see how quickly help will come. Free sample on request by Dr. Shoop, Racine, Wis., Your health is surely worth this simple test. Sold by G. M. Ramsey.

Notice Lawyers.

The News would appreciate you having your legal notices of all descrip-

tions published in its columns. We guarantee to reach more people than any other newspaper in the county.

REVIVALS.

From the Baptist Journal.

Revivals are not confined to times or to seasons, to places or to people. A genuine revival of religion may be in summer as well as in winter, in a grove or in a tent as well as in a town or city. We are accustomed, however to think of the opening weeks of the new year as the only time to expect or to plan a revival, because revivals have usually taken place at this season, often growing out of the week of prayer, that was formerly very generally observed in the first week of January. Then the minds of the people are thoughtful, impressionable, serious, at the review of the year just closed, and at the contemplation of the uncertainties of the year opening before them.

But revivals do not spring out of the ground. Nor do they often come from the East or the West, like the wind that bloweth. "But cannot not tell whence it cometh and whither it goeth." Neither do they come down from heaven, except after earnest and continued "prayers and supplications with strong crying and tears." There must be preparation, thoughtful, patient, skillful and judicious often consuming much time and strength, and wearing upon brain and body. The soil, the climate and latitude have much to do with the kind of crop to be raised. In every case, however, if any harvest worth while is to be reaped, there must be persistent, intelligent effort from the time of preparation of the soil until the gathering in of the last shock of grain. D. J. A.

THE "SECRET OF SECRETS" In Store Advertising.
One of the wisest of men wrote:
"Suffer any person to tell us his story, morning and evening, for but a twelve-month, AND HE WILL BECOME OUR MASTER!"
In the above sentence we have, in a nutshell, the INNERMOST SECRET OF SUCCESSFUL ADVERTISING—frequency, and persistence, and unvarying continuity in the telling of the story of store or enterprise. There are many other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret—
THE HEART OF THE WHOLE MATTER!

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

Trial Catarrh treatments are being proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh cure free, on request, by Dr. Shoop, Racine, Wis. These tests are tarth Remedy. Sold by G. M. Ramsey.

HON. GEO. C. CRUMP.

Leading Lawyer of Seminole, A Militant Democrat Candidate for Delegate to National Democratic Convention.

Than the Hon. Geo. C. Crump there are none, the News believes, who would reflect more creditably on the democracy of Seminole county, should it unitedly extend to him endorsement of his candidacy for delegate to the national convention. The fact of his close identity with the substantial affairs of his district and his being truly representative of the progressive, militant of the Bryan type-democratic spirit of Oklahoma should award him the fullest consideration of his district caucus at the state convention. An acquaintance with the general accomplishments of Mr. Crump entitles an award of confidence.

MESSAGE DEALS WITH TAX.

Haskell Suggests Other Things Than Real Estate.

Guthrie, Ok., Jan. 28.—The legislature today received a message from the governor on the question of taxes for the ensuing year. The executive called attention that taxes have heretofore largely fallen on real estate and recommends that the state board of taxation be authorized to include franchises, inheritances, incomes, etc., which, he stated, makes up one of the most profitable classes for assessment. Under the constitution the legislature has authority to provide for taxing inheritances, revenue, incomes, legacies, etc.

Hardwood Lumber.

We can furnish you first class hard wood lumber for \$17.00 per thousand feet. Give us a trial Saw mill east of Ada.

BLACKBURN & LEBBETTER

CANNON ON GRILL

TEXAN FLAYS SPEAKER, CHARGING HIM WITH HOLDING UP BILLS FAVORING MASSES.

TAUNTS THE REAUBLICANS

Declares They Fear to Enact Legislation Favorable to Taft, "Next Candidate."

Washington, Jan. 28.—Congressman Henry of Texas took advantage of the latitude allowed during the consideration of the urgent deficiency appropriation bill this morning to assail the republicans for their failure and their refusal to give consideration to any of the bills demanded by the laboring interests of the country.

He was especially severe in denunciation of the action of the judiciary committee, under the direction of the speaker in burying deeper every year his (Henry's) bill providing that no writ of injunction should issue without reasonable previous notice to the adverse party.

Mr. Henry showed that this was the law for eighty-one years, but that it was omitted in a codification of criminal statutes.

He read from a recent letter of Secretary Taft in which he subscribed to the bill, and taunted the republicans with being afraid to enact a law which was favored by their next candidate for the presidency. He declared that the laboring people had a right to this relief, and he predicted that it would be given, if not by the republicans under coercion, then by the democrats, whom they would put in power. Mr. Henry said he had received letters from Federal Judges in all parts of the country indorsing the principle of the bill.

"Is the republican speaker ready to give ear to the demands of the people who have called for this legislation year after year?" Mr. Henry exclaimed, and the whole democratic side applauded lustily.

Another bill of his, which Mr. Henry said had been buried under the auspices of the speaker, was that providing that no federal judge should issue an injunction or restraining order against a state officer or enjoin the enforcement of a state statute until the merits of the case had been determined.

Mr. Henry spoke for thirty minutes and when he concluded was loudly applauded on the democratic side.

Mr. London writes "If I owned your Tea, I would guarantee a cure or refund their money. I say it's Nature cure and the only one for the blood." Hollister's Rocky Mountain Tea cured him where other remedies failed. Nuff said. G. M. RAMSEY

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of Dyspepsia, Indigestion, and Irritation as real diseases, yet they are symptoms only of a certain specific nerve sickness—nothing else.
It was this fact that first correctly led Dr. Shoop to the creation of that now very popular Stomach Remedy—Dr. Shoop's Restorative. Going direct to the stomach nerves, alone brought them under control and gave to Dr. Shoop and his Restorative, without that original and highly vital principle, the such lasting accomplishments were ever to be had. For stomach distress, bloating, biliousness, bad breath and yellow complexion, try Dr. Shoop's Restorative—Tablets or Liquid—either for quick relief what it can and will do. We sell and cheerfully recommend.

On the day when he last entered the Atlantic office, in January, Mr. Aldrich seemed, for the first time, to have grown old. One of his friends spoke of it as he went out. Up till that morning, the weight of 70 years had scarcely seemed to touch the erect, jaunty figure. The lines that time had written around his clear blue eyes and firm mouth conveyed no hint of senility. His hair was scarcely gray. His voice, slightly husky in its graver, sweeter tones, retained a delicious, youthful crispness as it curled and broke, wave-like, into flashing rallery. He had just completed his poem for the Longfellow centenary, his first verse after some years of silence, and when it was praised to his face—for who could help praising it?—he blushed with pleasure like a boy. Yet he had passed three-score and ten, and the shadow, visible as yet and quite unperceived, was drawing very near.—Miss Perry, in Atlantic.

DRINK HABIT AMONG WOMEN ON INCREASE

GROWTH OF DANGEROUS EVIL IS SEEN

Prof. Quackenbos and Dr. Parkhurst Join in Deploring Present Conditions—"Common Among All Classes," Declares the Former Columbia Professor—Testimony of the Present Superintendent of Bellevue Hospital.

NEW YORK.—According to Prof. John Duncan Quackenbos, specialist in nervous and mental diseases, member of many American and foreign medical societies, and formerly of the Columbia university faculty, the drink habit is spreading at an alarming rate among the women of New York. To a representative of the Sunday World he said:

JOHN D. QUACKENBOS
have been in a position to watch that growth closely and I can say with full knowledge that ten women drink to-day where one drank a dozen years ago.

"The growth of the habit has been among women of all classes, the rich

bowel, however, is not to be blamed entirely. Many women dip into it and may do it many times without acquiring the drink habit, but many get their start there. It does give them the taste of liquor and then, with many of them, the taste for liquor. "Now, the tendency of the American woman is to go to extremes, and in drinking she over-drinks. It is dangerous for her to touch liquor at all. This is particularly true of the New York woman, because of the added excitement of life in New York. "It is not my object to preach unless the mere statement of fact is a sermon, and the fact is New York women do drink, or rather too large a percentage of them drink, and drink to excess. If one doubts it let him go to any of our large hotels and restaurants any night and look about him. On every hand you find them and their sister visitors to New York drinking. No one thinks anything about it, and the women think they are simply doing the proper thing. Many of them drink just because they do think that way and many of them drink because they like the liquor.

Do Not Want to Be Cured.
"I have treated in the last eight years 700 cases of alcoholism, with a large percentage of women, and I found in many cases where the patient was a woman that she did not, deep down in her heart, want to be cured of the habit. This fact is true especially in the case of the rich society woman. She usually comes to me either at the urgent solicitation of relatives or friends, or with only a surface desire to be rid of the habit. Very few of them honestly and truly, and with their whole heart, want to be cured. "For instance, a certain woman came to me for treatment for the drink habit and seemed sincere indeed. I treated her by auto-suggestion, giving her the suggestion that she could not lift a wineglass to her lips. She went away and the very next night

tations of whisky were judged to be the real thing. "It stands to reason, of course, that the great proportion of the liquor sold is counterfeit, when it is known that the consumption is far in excess of the ability of distillers and brewers to produce the genuine product. Adulterations and criminal counterfeits must be resorted to in order to meet the demand. I will wager that there have been inmates of Bellevue's alcoholic ward who have never tasted a drop of real whisky in their lives. They just think they have been drinking whisky, and if they had been drinking real whisky the chances are they would never have been in Bellevue. I don't say that real whisky, if taken excessively, is not harmful, but I do say that a man could drink the pure article in moderation all his life and not be hurt by it. Why, 15 drinks of pure whisky would not do a man the harm that one drink of this vile stuff they sell for whisky in New York would do him.

Poisoned by Vile Liquor.
"I know a man who left his office one evening all tired out dropped into

"A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes."—Dr. Quackenbos.

a saloon of the best class and took only two drinks of their bar whisky and was lost for four days. I was called in to help find him, as he was a friend of mine, and when we found him he was in a pitiable condition, his mind was clouded, he could not remember where he had been or what he had done after leaving that saloon. He only remembered that he had taken two drinks of whisky. "The beer drinker, if he gets real beer, is handed a glass of the beverage which, to meet the demands of trade, is put out too new and improperly fermented. Beer should be kept in the keg for six months before being sold to the drinker. "It is rather surprising how many of our school children have become beer drinkers, especially those of foreign birth, and the habit is making them mentally sluggish to a degree that is attracting the attention of educators and philanthropists. "Another habit which is getting control of our shop girls particularly is the cocaine habit. This habit has grown in the last few years with such rapidity that to-day thousands of young girls as well as mature women and men are held in its clutches. The effect of the habit is noted in the

dull, sunken eyes and pinched faces, and the continuance of the use of the drug leads to nervous wreckage, delirium and insanity."

LETTER POSTED 32 YEARS AGO.

Crossed Ocean Many Times Before Delivery to Sea Captain.

A letter posted at Garmstad, Norway, 32 years ago to Capt. Thomas Nielsen of the bark Harmonia, and which has traveled across the Atlantic to and fro many times in pursuit of him, was delivered to Thomas Nielsen, a carpenter of the revenue cutter Manhattan of the local service, says a New York dispatch to the St. Louis Globe Democrat. It was the right envelope, and the joint letter it contained brought the mist to his eyes with the "news" it told of old friends and relatives in Norway, many of whom are now dead. Capt. Nielsen is now 68 years old, and has been retired from the sea for many years. The letter was from his wife, Alviner, and his brother John, who wrote to tell of an accident to an

HAS DONE MUCH FOR HIS COUNTRY

Premier Franco of Portugal has given a new meaning to the word "dictator," showing that it not always stands for tyranny, oppression and burdensome taxation, but that a dictator may be a patriot and further the cause of good government, official purity and the welfare of the common people. Through the extraordinary powers conferred on him by King Carlos, Franco has been able, apparently, to overcome the grafters who have been preying upon the public purse no matter what party was in power.

VASTNESS HARD TO CONCEIVE. HAD FUN WITH THE INSPECTOR

Camille Flammarion's Illustration of the Depths of Space.

Taking the earth as a starting point, we will go in a straight line to any point of the heavens. We start. At the end of the first second, traveling as we are with the velocity of light, we have already gone 186,000 miles; at the end of the second, 372,000. We continue. Ten seconds—a minute—ten minutes have elapsed—11,600,000 miles have been passed. Carried on without stopping by this same rapidity of 186,000 miles each second, let us penetrate the expanse in a straight line for whole years, 50 years, even a century. Where are we? For a long time we have gone beyond the last starry regions which are seen from the earth. No mind is capable of following the road passed over; thousands of millions joined to thousands of millions express nothing. . . . but we have not advanced a single step in space. We are no nearer a limit than if we had remained in the same place.—Camille Flammarion.

Swedish Girl Was No Smuggler, but She Made Trouble.

A girl who has just returned from studying abroad in Sweden got even with the New York customs inspector who was too inquisitive regarding her purchases on the other side. Although she was a mild and innocent appearing person, yet the customs inspector seemed to suspect deceit in her appealing glance. So when he came across what the girl told him was a nest of Swedish baskets he seemed to think he had surely caught his victim red handed. He opened the basket and somewhat to his surprise discovered another. He opened it and kept on opening baskets until the seventeenth was reached. "Here," his triumphant glance seemed to say, "is where I make good." The seventeenth and last basket, not much larger than a silver dollar, was opened and—discovered empty. Then he had the pleasure of replacing them all, while the girl took malicious pleasure in looking on.

New Yorkers Becoming Hysterical

BY DR. S. T. ARMSTRONG.
(Superintendent of Bellevue and the Allied Hospitals.)

THE New Yorkers are becoming a hysterical people. They show an increasing excitability, a diminishment of self control. This demonstrates itself in all forms of excesses. Less and less restraint is exercised. The extreme tension of life here is showing on the people. One sees plenty of examples of this in individual life. A vast demonstration of it among a mass of the people is observed in the increasing hysteria of such celebrations as those of the night before the New Year. What is true of the city men is true of the city women. The increase of drunkenness is a distressing fact. It is a natural outcome of the restlessness, the overstriving, the unrestraint of present day life in New York. This subject is of tremendous importance. We should know just what we are confronting, what the future has in store for us, just where and how we are threatened. One may form an opinion as to an increasing inebriety among women from such exhibitions as those of New Year's eve, but beyond that it is not easy to go. There are no official statistics bearing on the question. The subject has had no investigation of scientific value. One cannot speak exactly as to condi-

tions, or to make comparisons between the present and the past. The records of the alcoholic and psychopathic wards of Bellevue hospital do not show the facts of inebriety even among the classes of men and women who would seek aid from this hospital. In 1904 there were 8,941 admissions to Bellevue for various forms of alcoholism. The number now is greatly less than that. In 1906 it had fallen to 6,653. But even with this reduction the number of alcoholic patients is more than 25 per cent of all the patients admitted to Bellevue. But these records prove nothing in the line we would follow. The number of inebriates who seek treatment at Bellevue has fallen off simply because an old offender who comes here is now liable to be turned over to a city magistrate, who will sentence him to an asylum as a chronic drunkard. This had the effect especially of keeping many women from taking repeated advantage of treatment at Bellevue. What is the cure of the evil of increasing inebriety in New York? Whatever will bring easement to the restless life in the city will lessen all forms of dissipation. The whole subject needs careful and thorough investigation to know what palliative measures can be taken. Drinking is only one symptom of what is wrong with us.

and the poor, young and old. Girls in their teens evidently see no impropriety whatever in drinking publicly with men companions. Very often indeed I have had young girls brought to me for treatment, hysterically drunk.

"I have treated within a year women whose weekly bill for champagne alone was \$100 and who filled up the intervals between their draughts of wine with highballs and cocktails. One woman drank a quart of champagne every morning, and when ready to go out her custom was to order her maid to bring her another quart. Then before leaving the house to enter her carriage she would empty the bottle to 'steady her nerves.' Girls indulge in Liquor.

"School misses and college girls in great numbers are among the throng of women drinkers. A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes. "As everyone knows, the punch bowl figures largely in the growth of the drink habit among women of New York. It is found at all functions, and many a girl has got her first taste of liquor by a dip into it. The punch

she went with a man companion to one of our large restaurants, made no objection whatever when wine was ordered, and even tried her best to overcome the suggestion I had given her and drink the wine. But she found that she could not lift the glass from the table. You see, she did not really and honestly want to be cured and wasted but little time in rushing into temptation. "Conditions might not be so bad, however, if women or men drank real, pure whisky, real, pure wine and real, pure liquors of all sorts, but they don't. They think they do, but what they are really drinking is a deadly poison and one swift in its execution. I feel safe in saying that out of 100 drinks sold in New York city as whisky not more than one is the real article.

Counterfeit Whisky.
"But so cleverly is whisky counterfeited to-day that club connoisseurs cannot detect it, as was shown in an experiment made recently by Dr. Darlington of the board of health. Dr. Darlington went around and collected a number of samples of whisky from saloons of all classes, took the samples to his club, where he had several of the members test them, and much to his surprise the cheap

Dr. Parkhurst Says "It Is a Fact"

WHEN a representative of the Sunday World read portions of Dr. Quackenbos' article to Rev. Dr. Charles Parkhurst he said: "It is undoubtedly true, and a deplorable fact, that the drink habit is growing rapidly among the women of New York. "I have not made a real investigation, as Dr. Quackenbos has, but one does not have to investigate; it is a fact which stares you in the face, it is all on the surface, and one can not overlook it. "A chief reason for this increase in the number of women who drink is, I believe, that there has been too much prosperity. Of course, just now we are passing through a period of 'hard

Rev. Dr. Charles Parkhurst.

times,' so to speak, but before the panic for a number of years the country was most prosperous, everybody had money, and life became too easy. When life is made too easy we are in a danger zone and more prone to give way to temptation. That long period of prosperity made us too material, also turned the desires of many only

to what they could see and eat and drink.

"I suppose the growth of the drink habit has been principally among the women of the richer classes. It is at least reasonable to believe so, as they have the money and time to indulge in such laxity. Idleness is usually dangerous.

"Another phase in the drink question is the quality of the liquor. Dr. Quackenbos points out the shameful adulteration in whisky, but let me ask why it is tolerated? Where is our pure food law? Why, it is in our statute books, but it isn't in the hearts or minds of those in authority or in the hearts or minds of the people who put those men in authority. If it were, the law would be enforced.

"The growing tendency of the American people is a disrespect for laws. We have plenty of good laws, but they are not enforced. That is the whole trouble. The men who should enforce them do not do it, and the people who elect those men to office do not make them do it, and they keep on electing men who will not do it.

"Our mayor is sworn to be active in the enforcement of the laws, but is he? He is not. Well, if the mayor is inactive can you expect those under him to be otherwise? He is the man to whom the lesser officials look, and if he sets such an example, what is the result? Inactively all along the line and our laws become mere printed matter.

"We also send incompetency to our legislative bodies in Albany. We have done so for years and probably will keep on doing so. We know that we are doing it and have little or no respect for a large majority of the men we send there, so how can we have respect for the laws they make? We cannot have respect for those laws and we have not."

IN MEMORY OF GREAT EDUCATOR

Harper Memorial Building, University of Chicago.

upon the past work, with papers and discussions. Then the present things to be considered and the work of the immediate future will form a class by itself on the program. It will certainly be interesting to hear a review of the work of the clubs for the last 30 years.

Out of It.
"Mrs. Jinks no longer in society? How strange!"
"It's her own fault. She would be a faddist. Devoted to home and husband and that sort of thing."
"Still, I don't see—"
"My dear, I haven't told the worst. She had a baby just at the height of the bridge season."
"Well, well!"
*
Almost an insult.
"What's the matter, Algy?"
"Why, dash it all, that big girl over yonder, don't ye know, she asked me if I had a pound of rag with me!"

der his arm counted lies for 14 miles to this city. He entered the church tired and dusty, slipped on his coat and walked from the vestry door just in time to meet his congregation, who did not hear about his journey on foot until after his sermon had been delivered, one of the best sermons of the day in Reno.—Reno Letter to San Francisco Chronicle.

Right Denomination.
To the astonishment of Brother Johnson, who had taken up the collection, a bill was found in the basket. "Somebody," he said to the clergy man, "done got religion fer de first time en drapped in er note."
"A note!" exclaimed the dominie. "What denomination mought it be, brother?"
"Huh!" sniffed Brother Johnson. "What denomination? Why, Baptist, o' co'se. How could hit be any other denomination when dis am er Baptist meeting?"—Philadelphia Ledger.

CHAPMAN
The Shoe Man

THEY ALL RAN.

Horses and Men Got Scared—Much Doing.

About 8:30 a. m. the gray buggy horse of Jno. Chapman got frightened near the oil mill on Townsend and when a line broke Mr. Chapman jumped and old gray paraded the streets in good and swift fashion.

Turning up Main street from Townsend he made a dash for I. Harris' store, but deciding like did not have what he wanted, he suddenly turned across Main and made a bee line for Mason's drug store. He did not choose to enter the door but attempted to gain entrance in through the glass front. He pushed a large glass out and got as far inside as he could. Frank Maddox and Ed Hunter who were in the place did their dead level best to beat each other out the back door. When they got their nerve settled however, they assisted gray out of the show window. But this was not half. Old gray had just begun the horse show. Ed Hunter had left old bay standing unhitched and more fun began when he led the dirty clothes wagon a merry chase down Main. All went well until a collision occurred; the dirty clothes wagon vs. Millhuff's grocery wagon. This was loaded with hay and when the two got together, spokes, dirty shirts and hay were scattered to the other side of the street. All this was two much fun for Grand Pa Wheeler's old plow horse which was standing near by and he came upon the scene with his plow bounding in the air, now and then digging into the earth for a chunk of earth.

Results: Three vehicles smashed, two horses injured and Frank Maddox and Ed Hunter scared half to death. For further particulars see Bud Gregg.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

tions published in its columns. We guarantee to reach more people than any other newspaper in the county.

REVIVALS.

From the Baptist Journal.

Revivals are not confined to times or to seasons, to places or to people. A genuine revival of religion may be in summer as well as in winter, in a grove or in a tent as well as in a town or city. We are accustomed, however to think of the opening weeks of the new year as the only time to expect or to plan a revival, because revivals have usually taken place at this season, often growing out of the week of prayer, that was formerly very generally observed in the first week of January. Then the minds of the people are thoughtful, impressionable, serious, at the review of the year just closed, and at the contemplation of the uncertainties of the year opening before them.

But revivals do not spring out of the ground. Nor do they often come from the East or the West, like the wind that bloweth, "but cannot tell whence it cometh and whither it goeth." Neither do they come down from heaven, except after earnest and continued "prayers and supplications with strong crying and tears." There must be preparation, thoughtful, patient, skillful and judicious often consuming much time and strength, and wearing upon brain and body. The soil, the climate and latitude have much to do with the kind of crop to be raised. In every case, however, if any harvest worth while is to be reaped, there must be persistent, intelligent effort from the time of preparation of the soil until the gathering in of the last shock of grain. D. J. A.

THE "SECRET OF SECRETS" In Store Advertising.

One of the wisest of men wrote:

"Suffer any person to tell us his story, morning and evening, for but a twelve-month, AND HE WILL BECOME OUR MASTER!"

In the above sentence we have, in a nutshell, the INNERMOST SECRET OF SUCCESSFUL ADVERTISING—frequency, and persistence, and unvarying continuity in the telling of the story of store or enterprise. There are many other things to be said of successful advertising, but in the above quotation is found the real philosophy, the real secret—

THE HEART OF THE WHOLE MATTER!

A tickling cough, from any cause, is quickly stopped by Dr. Shoop's Cough Cure. And it is so thoroughly harmless and safe, that Dr. Shoop tells mothers everywhere to give it without hesitation, even to very young babies. The wholesome green leaves and tender stems of a lung-healing mountainous shrub, furnish the curative properties to Dr. Shoop's Cough Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

Trial Catarrh treatments are being proving to the people—without a penny's cost—the great value of this scientific prescription known to druggists everywhere as Dr. Shoop's Catarrh Cure. It calms the cough, and heals the sore and sensitive bronchial membranes. No opium, no chloroform, nothing harsh used to injure or suppress. Simply a resinous plant extract, that helps to heal aching lungs. The Spaniards call this shrub which the Doctor uses, "The Sacred Herb." Always demand Dr. Shoop's Cough Cure Sold by G. M. Ramsey.

DRINK HABIT AMONG WOMEN ON INCREASE

GROWTH OF DANGEROUS EVIL IS SEEN

Prof. Quackenbos and Dr. Parkhurst Join in Deploring Present Conditions—"Common Among All Classes," Declares the Former Columbia Professor—Testimony of the Present Superintendent of Bellevue Hospital.

NEW YORK.—According to Prof. John Duncan Quackenbos, specialist in nervous and mental diseases, member of many American and foreign medical societies, and formerly of the Columbia university faculty, the drink habit is spreading at an alarming rate among the women of New York. To a representative of the Sunday World he said:

JOHN D. QUACKENBOS

have been in a position to watch that growth closely and I can say with full knowledge that ten women drink to-day where one drank a dozen years ago.

"The growth of the habit has been among women of all classes, the rich

bowl, however, is not to be blamed entirely. Many women dip into it and may do it many times without acquiring the drink habit, but many get their start there. It does give them the taste of liquor and then, with many of them, the taste for liquor.

"Now, the tendency of the American woman is to go to extremes, and in drinking she over-drinks. It is dangerous for her to touch liquor at all. This is particularly true of the New York woman, because of the added excitement of life in New York.

"It is not my object to preach unless the mere statement of fact is a sermon, and the fact is New York women do drink, or rather too large a percentage of them drink, and drink to excess. If one doubts it let him go to any of our large hotels and restaurants any night and look about him. On every hand you find them and their sister visitors to New York drinking. No one thinks anything about it, and the women think they are simply doing the proper thing. Many of them drink just because they do think that way and many of them drink because they like the liquor.

Do Not Want to Be Cured.

"I have treated in the last eight years 700 cases of alcoholism, with a large percentage of women, and I found in many cases where the patient was a woman that she did not, deep down in her heart, want to be cured of the habit. This fact is true especially in the case of the rich society woman. She usually comes to me either at the urgent solicitation of relatives or friends, or with only a surface desire to be rid of the habit. Very few of them honestly and truly, and with their whole heart, want to be cured.

"For instance, a certain woman came to me for treatment for the drink habit and seemed sincere indeed. I treated her by auto-suggestion, giving her the suggestion that she could not lift a wineglass to her lips. She went away and the very next night

tations of whisky were judged to be the real thing. "It stands to reason, of course, that the great proportion of the liquor sold is counterfeit, when it is known that the consumption is far in excess of the ability of distillers and brewers to produce the genuine product. Adulterations and criminal counterfeits must be resorted to in order to meet the demand. I will wager that there have been inmates of Bellevue's alcoholic ward who have never tasted a drop of real whisky in their lives. They just think they have been drinking whisky, and if they had been drinking real whisky the chances are they would never have been in Bellevue. I don't say that real whisky, if taken excessively, is not harmful, but I do say that a man could drink the pure article in moderation all his life and not be hurt by it. Why, 15 drinks of pure whisky would not do a man the harm that one drink of this vile stuff they sell for whisky in New York would do him.

Poisoned by Vile Liquor.

"I know a man who left his office one evening all tired out, dropped into

"A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes."—Dr. Quackenbos.

a saloon of the best class and took only two drinks of their bar whisky and was lost for four days. I was called in to help find him, as he was a friend of mine, and when we found him he was in a pitiable condition, his mind was clouded, he could not remember where he had been or what he had done after leaving that saloon. He only remembered that he had taken two drinks of whisky.

"The beer drinker, if he gets real beer, is handed a glass of the beverage which, to meet the demands of trade, is put out too new and improperly fermented. Beer should be kept in the keg for six months before being sold to the drinker.

"It is rather surprising how many of our school children have become beer drinkers, especially those of foreign birth, and the habit is making them mentally sluggish to a degree that is attracting the attention of educators and philanthropists.

"Another habit which is getting control of our shop girls particularly is the cocaine habit. This habit has grown in the last few years with such rapidity that to-day thousands of young girls as well as mature women and men are held in its clutches. The effect of the habit is noted in the

dull, sunken eyes and pinched faces, and the continuance of the use of the drug leads to nervous wreckage, delirium and insanity."

LETTER POSTED 32 YEARS AGO.

Crossed Ocean Many Times Before Delivery to Sea Captain.

A letter posted at Garmstad, Norway, 32 years ago to Capt. Thomas Nielsen of the bark Harmonia, and which has traveled across the Atlantic to and fro many times in pursuit of him, was delivered to Thomas Nielsen, a carpenter of the revenue cutter Manhattan of the local service, says a New York dispatch to the St. Louis Globe Democrat. It was the right envelope, and the joint letter it contained brought the mist to his eyes with the "news" it told of old friends and relatives in Norway, many of whom are now dead.

Capt. Nielsen is now 68 years old, and has been retired from the sea for many years. The letter was from his wife, Alviner, and his brother John, who wrote to tell of an accident to an-

HAS DONE MUCH FOR HIS COUNTRY

JOAQUIM FRANCO, Dictator of Portugal.

Premier Franco of Portugal has given a new meaning to the word "dictator," showing that it not always stands for tyranny, oppression and burdensome taxation, but that a dictator may be a patriot and further the cause of good government, official purity and the welfare of the common people. Through the extraordinary powers conferred on him by King Carlos, Franco has been able, apparently, to overcome the grafters who have been preying upon the public purse no matter what party was in power.

VASTNESS HARD TO CONCEIVE. HAD FUN WITH THE INSPECTOR?

Camille Flammarion's Illustration of the Depths of Space.

Swedish Girl Was No Smuggler, but She Made Trouble.

Taking the earth as a starting point, we will go in a straight line to any point of the heavens. We start. At the end of the first second, travelling as we are with the velocity of light, we have already gone 186,000 miles; at the end of the second, 372,000. We continue. Ten seconds—a minute—ten minutes have elapsed—111,600,000 miles have been passed. Carried on without stopping by this same rapidity of 186,000 miles each second, let us penetrate the expanse in a straight line for whole years, 50 years, even a century. Where are we? For a long time we have gone beyond the last starry regions which are seen from the earth. No mind is capable of following the road passed over; thousands of millions joined to thousands of millions express nothing, but we have not advanced a single step in space. We are so nearer a limit than if we had remained in the same place.—Camille Flammarion.

A girl who has just returned from studying abroad in Sweden got even with the New York customs inspector who was too inquisitive regarding her purchases on the other side. Although she was a mild and innocent appearing person, yet the customs inspector seemed to suspect deceit in her appealing glance.

So when he came across what the girl told him was a nest of Swedish baskets he seemed to think he had surely caught his victim red handed. He opened the basket and somewhat to his surprise discovered another.

He opened it and kept on opening baskets until the seventeenth was reached. "Here," his triumphant glance seemed to say, "is where I make good." The seventeenth and last basket, not much larger than a silver dollar, was opened and discovered empty. Then he had the pleasure of replacing them all, while the girl took malicious pleasure in looking on.

Will Review Past Work.

Walked Fourteen Miles to Preach.

When Rev. Samuel Unsworth of the Trinity Episcopal church found himself at Verdi with a wreck at Calvada, which would prevent his reaching Reno by train in time to occupy his pulpit for the services, he took off his long black coat and putting it on

New Yorkers Becoming Hysterical

BY DR. S. T. ARMSTRONG.
(Superintendent of Bellevue and the Allied Hospitals.)

THE New Yorkers are becoming a hysterical people. They show an increasing excitability, a diminishment of self control. This demonstrates itself in all forms of excesses. Less and less restraint is exercised. The extreme tension of life here is showing on the people. One sees plenty of examples of this in individual life. A vast demonstration of it among a mass of the people is observed in the increasing hysteria of such celebrations as those of the night before the New Year. What is true of the city men is true of the city women. The increase of drunkenness is a distressing fact. It is a natural outcome of the restlessness, the overstriving, the unrestraint of present day life in New York.

This subject is of tremendous importance. We should know just what we are confronting, what the future has in store for us, just where and how we are threatened. One may form an opinion as to an increasing inebriety among women from such exhibitions as those of New Year's eve, but beyond that it is not easy to go. There are no official statistics bearing on the question. The subject has had no investigation of scientific value. One cannot speak exactly as to condi-

tions, or to make comparisons between the present and the past. The records of the alcoholic and psychopathic wards of Bellevue hospital do not show the facts of inebriety even among the classes of men and women who would seek aid from this hospital. In 1904 there were 8,941 admissions to Bellevue for various forms of alcoholism. The number now is greatly less than that. In 1906 it had fallen to 6,653. But even with this reduction the number of alcoholic patients is more than 25 per cent. of all the patients admitted to Bellevue. But these records prove nothing in the line we would follow. The number of inebriates who seek treatment at Bellevue has fallen off simply because an old offender who comes here is now liable to be turned over to a city magistrate, who will sentence him to an asylum as a chronic drunkard. This had the effect especially of keeping many women from taking repeated advantage of treatment at Bellevue.

What is the cure of the evil of increasing inebriety in New York? Whatever will bring easement to the restless life in the city will lessen all forms of dissipation. The whole subject needs careful and thorough investigation to know what palliative measures can be taken. Drinking is only one symptom of what is wrong with us.

and the poor, young and old. Girls in their teens evidently see no impropriety whatever in drinking publicly with men companions. Very often indeed I have had young girls brought to me for treatment, hysterically drunk.

"I have treated within a year women whose weekly bill for champagne alone was \$100 and who filled up the intervals between their draughts of wine with highballs and cocktails. One woman drank a quart of champagne every morning, and when ready to go out her custom was to order her maid to bring her another quart. Then before leaving the house to enter her carriage she would empty the bottle to 'steady her nerves.'

Girls Indulge in Liquor.

"School misses and college girls in great numbers are among the throng of women drinkers. A case was pointed out recently of a luncheon given here in New York at which 24 debutantes drank 36 bottles of champagne, and 15 of them smoked seven dozen cigarettes.

"As everyone knows, the punch bowl figures largely in the growth of the drink habit among women of New York. It is found at all functions, and many a girl has got her first taste of liquor by a dip into it. The punch

she went with a man companion to one of our large restaurants, made no objection whatever when wine was ordered, and even tried her best to overcome the suggestion I had given her and drink the wine. But she found that she could not lift the glass from the table. You see, she did not really and honestly want to be cured and wasted but little time in rushing into temptation.

"Conditions might not be so bad, however, if women or men drank real, pure whisky, real, pure wine and real, pure liquors of all sorts, but they don't. They think they do, but what they are really drinking is a deadly poison and one swift in its execution. I feel safe in saying that out of 100 drinks sold in New York city as whisky not more than one is the real article.

Counterfeit Whisky.

"But so cleverly is whisky counterfeited to-day that club connoisseurs cannot detect it, as was shown in an experiment made recently by Dr. Darlington of the board of health. Dr. Darlington went around and collected a number of samples of whisky from saloons of all classes, took the samples to his club, where he had several of the members test them, and much to his surprise the cheap tat-

Dr. Parkhurst Says "It Is a Fact"

WHEN a representative of the Sunday World read portions of Dr. Quackenbos' article to Rev. Dr. Charles Parkhurst he said:

"It is undoubtedly true, and a deplorable fact, that the drink habit is growing rapidly among the women of New York.

"I have not made a real investigation, as Dr. Quackenbos has, but one does not have to investigate; it is a fact which stares you in the face, it is all on the surface, and one cannot overlook it.

"A chief reason for this increase in the number of women who drink is, I believe, that there has been too much prosperity. Of course, just now we are passing through a period of 'hard

Rev. Dr. Charles Parkhurst.

times,' so to speak, but before the panic for a number of years the country was most prosperous, everybody had money, and life became too easy. When life is made too easy we are in a danger zone and more prone to give way to temptation. That long period of prosperity made us too material, also turned the desire of many only

to what they could see and eat, and drink.

"I suppose the growth of the drink habit has been principally among the women of the richer classes. It is at least reasonable to believe so, as they have the money and time to indulge in such laxity. Idleness is usually dangerous.

"Another phase in the drink question is the quality of the liquor. Dr. Quackenbos points out the shameful adulteration in whisky, but let me ask why it is tolerated? Where is our pure food law? Why, it is in our statute books, but it isn't in the hearts or minds of those in authority or in the hearts or minds of the people who put those men in authority. If it were, the law would be enforced.

"The growing tendency of the American people is a disrespect for laws. We have plenty of good laws, but they are not enforced. That is the whole trouble. The men who should enforce them do not do it, and the people who elect those men to office do not make them do it, and they keep on electing men who will not do it.

"Our mayor is sworn to be active in the enforcement of the laws, but is he? He is not. Well, if the mayor is inactive can you expect those under him to be otherwise? He is the man to whom the lesser officials look, and if he sets such an example, what is the result? Inactivity all along the line and our laws become mere printed matter.

"We also send incompetency to our legislative bodies in Albany. We have done so for years and probably will keep on doing so. We know that we are doing it and have little or no respect for a large majority of the men we send there, so how can we have respect for the laws they make? We cannot have respect for those laws and we have not."

IN MEMORY OF GREAT EDUCATOR

Harper Memorial Building, University of Chicago.

upon the past work, with papers and discussions. Then the present things to be considered and the work of the immediate future will form a class by itself on the program. It will certainly be interesting to hear a review of the work of the clubs for the last 30 years.

Out of It.

"Mrs. Jinks no longer in society? How strange!"

"It's her own fault. She would be a faddist. Devoted to home and husband and that sort of thing."

"Still, I don't see—"

"My dear, I haven't told the worst. She had a baby just at the height of the bridge season."

Almost an Insult.

"What's the matter, Algy?"

"Why, dash it all, that big girl over yonder, don't ye know, she asked me if I had a powder rag with me!"

Right Denomination.

To the astonishment of Brother Johnson, who had taken up the collection, a bill was found in the basket.

"Somebody," he said to the clergy man, "done got religion fer de first time en drapped in er note."

"A note!" exclaimed the dominie. "What denomination mought it be, brother?"

"Buh!" sniffed Brother Johnson. "What denomination? Why, Baptis', o' co'ase. How could hit be any other denomination when dis am er-Baptis' meetin'."—Philadelphia Ledger.
